Projects

Cosmetic Store Web Application — lordglory.in   *MERN Stack Developer*
Tech: React.js, Node.js, Express.js, MongoDB

- Full-stack e-commerce platform with role-based access for users, agents, and admins.
- RESTful APIs for products, cart, orders; integrated PhonePe for payments.
- Developed dashboards for admin and agent with coupon-based commission tracking.

Institute Portal Management System Tech: React.js, Node.js, Express.js, MongoDB

- Developed a centralized portal for students, staff, and admin to manage academic and administrative tasks.
- Enabled students to register, choose courses, apply for jobs, and schedule interviews within the platform.
- Built modules for attendance tracking, fee management, notice board, and internal communication.
- Admin panel included complete control over student records, course catalogs, and job posting workflows.
